

UFO

LOW VOLTAGE UFO

- 12V, 50W (max) GU 5.3 (MR16) reflector lamps (not inc.)
- Electrical protection class III
-  Surface versions suitable for mounting on normally flammable surfaces

UFO - TRACK MOUNTED

- Patented, easily moveable adaptor for *Microlux* low voltage track

White	Black	Aluminium
ULT50	ULT51	ULT54

UFO - INTEGRAL ELECTRONIC TRANSFORMER 12V 20-50W

- Ø 92mm polycarbonate transformer housing
- For ease of installation installs as 240V fixture
- Electrical protection class II
- Dimmable using 'trailing edge' dimmer only
- Thermal overload and short circuit protected
- Side or rear cable entry. BESA compatible

White	Black	Aluminium
UTS50	UTS51	UTS54

UFO - SURFACE MOUNTED

- Ø 85mm Steel fixing plate complete with terminal block. Finished to match head
- Remote 12V transformer required, see pages 48 - 49

White	Black	Aluminium
ULS50	ULS51	ULS54

Retro styled head. Fully encloses the lamp where extraneous light is undesirable. Ideal for general display lighting in shops, exhibitions and galleries etc.

UFO PICTURELITE

- Ideal for lighting indoor signs, pictures, wall displays, exhibition areas, showrooms, reception areas, galleries etc
- Available with surface plate or integral transformer
- Suitable for 50 watt (max) low voltage reflector lamps
- Lamp is totally enclosed for safety and to avoid extraneous and distracting light

- Ø 85mm steel fixing plate complete with terminal block, finished to match arm and head
- Remote 12V transformer required, see pages 48 - 49
- Length 400mm

White	Black	Aluminium
USP500	USP501	USP504

UFO PICTURELITE WITH INTEGRAL TRANSFORMER

- For ease of installation installs as 240V fixture.
- Electrical protection class II
- Dimmable using 'Trailing edge' dimmer only
- Thermal overload and short circuit protected
- Side or rear entry. BESA compatible
- Length 430mm

White	Black	Aluminium
USL500	USL501	USL504

UFO EXHIBITION

- Clips to panels up to 40mm thick to provide quick change of lighting position for exhibition and show areas
- Requires remote 12V transformer, see pages 48 - 49
- Suitable for 50 watt (max) low voltage reflector lamps
- Electrical protection class III
- Lamp is totally enclosed for safety and to avoid extraneous and distracting light
- Length 500mm

White	Black	Aluminium
UBD500	UBD501	UBD504

UFO PENDANT DROPS

- All UFO versions are available with arrange of drop rods in various lengths
- To specify add the overall length suffix to the required UFO code. See list below
 Eg. **ULT54/500** specifies a 500mm long track mounted drop with aluminium finish

Required length mm	200	300	400	500	1000
Suffix	/200	/300	/400	/500	/1000

To specify a 'Reversed head' add **R** to the end of the product code eg. **ULT54/500R**
